

Our Fish

Keenan Seafood is passionate about seafood. We see ourselves as the market leader in supplying top quality seafood at competitive prices. Everyone in the company is committed to trying each day to provide the highest standard of service and support to all our customers whether big or small. The same attention to detail applies to all categories of customers whether in the hotel, restaurant, cafe takeaway, retail, contract catering or public sector groups.

We take a very proactive approach in working with our customers to develop their businesses. This involves regular contact from our sales team to discuss menu options, special order requirements, seasonal availability and price changes. We have a daily "Specials Board" which is sent to customers each morning via email, text or WhatsApp to let them know what the best value lines are for that day.

We stock approximately 850 fresh and frozen seafood lines and with over 75 years' experience in the trade we have a close working relationship with all our suppliers. Our buyers are in contact with the markets throughout Ireland and the U.K. early every morning to check what fish is available and get an indication on prices. Orders are then placed for same day dispatch to our factory based on the quantities we expect to need for our customers. We source as much fish as we can from the local ports of Killeel, Ardglass and Portavogie in order to guarantee the freshest quality products for our customers.

Keenan Seafood has invested significantly in its facilities and people over the past number of years to ensure it provides a quality service to all its customers. We have a modern fleet of 9 refrigerated vehicles making deliveries to customers throughout N. Ireland six days per week. Our factory is fitted out to the latest EU specifications and we have a comprehensive Quality Management System in place to ensure we meet all the relevant technical standards. Achievement of the Investors in People Accreditation indicates that everyone in the company is committed to making the business a success for ourselves and our customers.

So, if you want a friendly, reliable and professional service, please look no further than Keenan Seafood.

When Tartine at Distillers Arms first opened, I knew that I needed a topflight seafood supplier. One that could offer super fresh catch with a superior range available and at competitive prices.

Looking back over our first hectic season, I can really say that Keenan Seafood delivered.

We are only as good as our suppliers and with on time deliveries and great quality from Gerry and his team, we were able to offer our guests some of the finest fish available.

Gary Stewart

(Proprietor Distillers Arms, Bushmills, Co. Antrim)
